

Based on CDC and EPA guidance, products that meet the following criteria are likely to kill the Ebola virus. These products have not been specifically tested against the Ebola virus but meet the criteria established by the CDC and EPA.

1. The product meets the CDC criteria for disinfectant products with label claims for a non-enveloped virus;
2. The product is intended for use on hard, non-porous surfaces; and,
3. The product's label use instructions for the non-enveloped virus or viruses should be followed.
